

Amy L. Mercurio, LEED AP

Director, Design and Construction
Facilities and Real Estate Department
Johns Hopkins University and Medicine
3910 Keswick Road, N3100
Baltimore, MD 21211

Amy L. Mercurio is Director of Design & Construction for Johns Hopkins Facilities & Real Estate. In her role, Amy is responsible for all design and construction activities on the historic Homewood campus as well as the Peabody campus, other Baltimore locations, Washington DC, and Montgomery County.

Amy is a graduate of the Penn State Harrisburg Structural Design & Construction Engineering program and has lived in Baltimore area since 1993, when she joined The Whiting-Turner Contracting Company as a Project Engineer. In her thirteen years at Whiting-Turner, Amy was involved primarily in renovation and retail projects such as the Camden Yards South Warehouse, renovation of Security West, The Mall in Columbia expansion and renovation, and Short Pump Town Center

In 2008, Amy started at Johns Hopkins Facilities as a Senior Project Manager, responsible for a diverse set projects ranging from lab renovations to a cogeneration facility to the newest building on the Homewood Campus, Malone Hall.

Amy is also a Board member of the Building Congress and Exchange and an active member of the Owner's Committee.
